

# DEPARTMENT OF THE NAVY

UNITED STATES ATLANTIC FLEET

HEADQUARTERS OF THE COMMANDER IN CHIEF

NORFOLK, VIRGINIA 23511-6001

26 April 1989

Mr. Brad Giordani,

The Non-Developmental Items Office for CINCLANTFLT has completed the operational assessment of Militec metal conditioner in various internal combustion engines, and gearboxes presently in service with the U.S. Navy.

The results of these assessments have been very positive, concluding that Militec performs as advertised. Subsequently, this office has forwarded a recommendation for interim certification for use within the U.S. Navy.

The interim certification should be forthcoming. If you have any questions regarding the interim certification, contact

Mr. Fred Crowsen from the office of the Assistant Deputy Under Secretary of the Navy for Safety & Survivability at 202-692-9118.

Sincerely,

A handwritten signature in cursive script, reading "John C. Taggart", is centered below the word "Sincerely,".

JOHN C. TAGGART

DCCM USN

CINCLANTFLT Non-Development Items
